PROFESSIONAL EXPERIENCE

Consultant Software Developer (Part-Time), VISTA Engg Solutions 11/2025 – 04/2026

Software Developer Intern, VISTA Engg Solutions 05/2025 – 11/2025

- Built an Enterprise Workforce Solution with RBAC and hierarchy-based task assignment, improving workflow efficiency.
- Developed a QA automation platform for a public sector client, streamlining testing workflows and reporting processes by 50%.
- Automated report generation using dynamic templates, cutting report creation time by 60%.
- Implemented document version control, collaboration, and signature verification, improving accuracy and team productivity.
- Worked across the stack using React & Vue.js for frontend, Node.js & Flask for backend services, and PostgreSQL (Neon DB) for data management.

EDUCATION

M.Sc. Software Systems (Integrated), Coimbatore Institute of Technology 2022 – Present

CGPA-8.43 (Till semester-7)

SKILLS

Languages

Python, C++, C

Backend

Flask, Node.js, REST APIs, PHP, Express

Frontend

Vue.js, React, Javascript, Svelte, HTML, CSS

Database

PostgreSQL, MySQL, MongoDB

Tools & Platforms:

Supabase, Neon DB, Git, Figma

PROJECTS

Nexto - Smart Task Queue Chrome Extension (Svelte, TypeScript, Supabase)

- Built an offline-first task queue with RBAC-like prioritization (priority, energy, deadlines) and workflow states (*todo* → *doing* → *done*).
- Implemented cross-device sync with Supabase (PostgreSQL) and local storage fallback for seamless usage.
- Designed a modular Chrome extension architecture (service worker, popup, options) enabling scalable feature development.

Ordinus - Intelligent Academic Timetable Generator (FastAPI, PostgreSQL, React)

- Built a constraint-based scheduler using backtracking and genetic algorithms for timetable generation.
- Enforced faculty availability, lab blocks, and conflict-free scheduling, including multi-class coordination.
- Developed a full-stack system with interactive UI for timetable generation and visualization.

Innovis - Content Platform for Technology & Learning (Vue, Supabase)

- Built a content platform with categorized hubs, search, and filtering for structured knowledge delivery.
- Implemented Markdown-based rendering and admin workflows with authentication for content management.
- Designed a responsive, animated UI with dark mode, improving usability and engagement.

CERTIFICATES

Cybersecurity - CISCO Networking Academy

Introduction to Cybersecurity

Microsoft Research

Large Language Models and Their Applications

Figma - Udemy

Learn Figma in 14 days - Master UI Design & Prototyping

ROLES

Student Internship Coordinator, CIT 2024 – 2025

Treasurer, FOSS CLUB, CIT 2024 – 2025

Event Manager, FOSS CLUB, CIT 2023 – 2024

CO-CURRICULAR ACTIVITIES

Achievements

- Winner - VisionX Hackathon - VISTA Engg solutions
- Winner -Codevortex - Computing department, CIT
- 2nd Runner up - Frontend Hackathon - FOSS-CIT

Technical Speaker & Mentor, FOSS-CIT

- Delivered sessions on Data Structures using C (Coding Season 2 & 3) and Figma/UI-UX Design (Figma Unleashed), mentoring students through hands-on learning and practical applications.
